

Entrepreneur club

The **NetAcademy** Entrepreneurship Club was founded in 2002 to harness and enable the deep pool of entrepreneurial genius that exists within the business communities. It is professionally run and is positioned to complement the offerings of other clubs.

The Netacademy E-Club has become Netacademy's premier networked resource to promote entrepreneurial activity among students,

Our Vision

alumni and researchers who are starting, working for, or advising new businesses in high-growth environments. In order to accomplish this, we have established the following objectives:

Welcome

Build an entrepreneurial network at **NetAcademy** based on quality events programming.

Stimulate entrepreneurial knowledge among its members through education, training, workshops, consulting, participating in local, regional and national competitions as well as conferences.

Engage members in social activities including community services that would promote valuable network opportunities to enhance entrepreneurial experience.

Develop a career-search infrastructure for providing access to information and job opportunities at aggressively growing startups.

Foster the development of new businesses through ongoing series of workshops, entrepreneur-executive speeches, the E-Conference and continued support of the Business Plan Competition.

The E-Club aims to support entrepreneurs through all steps of the Business Plan Competition Entrepreneurial Process:

- Idea Generation
- Market Research
- Business Planning
 - Financing
- Staffing and Implementation

The E-Club provides expert consultancy services such as the following:

- Business Legal advice and formation of companies
- Accounting and financial services
- Best business practices and Business Modelling
 - ISO application procedures
